

User Stories Document

1. Introduction

This document captures Agile user stories for the Online Food Delivery Platform. These stories translate system requirements into user-focused, sprint-ready work items.

2. User Roles

Role	Description
Customer	Places food orders
Restaurant User	Manages incoming orders
Admin	Monitors platform operations

3. Epics Overview

Epic ID	Epic Name	Description
EP-01	User Authentication	Registration and login
EP-02	Restaurant Browsing	Search and view restaurants
EP-03	Order Management	Cart and order placement
EP-04	Payment Processing	Online payments
EP-05	Order Tracking	Delivery status updates
EP-06	Admin Management	Platform administration

4. Detailed User Stories

Story ID	User Story	Acceptance Criteria	Priority	Traceability
US-01	As a customer, I want to register using my mobile number so that I can access the platform.	Valid mobile number, OTP verification, account created	High	FR-01, SRS-01
US-02	As a customer, I want to log in securely so that I can place orders.	Valid login, error for invalid credentials	High	FR-03, SRS-01
US-03	As a customer, I want to browse nearby restaurants so that I can choose where	Restaurants shown by location, filters available	Medium	FR-05, SRS-03

	to order.			
US-04	As a customer, I want to add items to cart so that I can place an order.	Add/remove items, real-time price update	High	FR-08, SRS-04
US-05	As a customer, I want to make online payment so that my order is confirmed.	Payment success/failure handling, order ID generated	High	FR-14, SRS-06
US-06	As a customer, I want to track my order so that I know delivery status.	Real-time updates, ETA visible	Medium	FR-17, SRS-05
US-07	As a restaurant user, I want to accept or reject orders to manage workload.	Order notification, accept/reject action	High	FR-21, SRS-05
US-08	As an admin, I want to view reports to monitor performance.	Reports accessible, filters available	Low	FR-25, SRS-06

5. Definition of Done

Done Criteria
User story implemented and tested
Acceptance criteria met
No critical defects open
Product Owner approval received

6. Conclusion

These user stories ensure alignment between business requirements and Agile delivery. They support effective sprint planning, development, and acceptance.
