

Functional Requirement Specification (FRS)

Online Food Delivery Platform

1. Document Control

Attribute	Details
Document Name	Functional Requirement Specification (FRS) / Functional Specification Document (FSD)
Project	Online Food Delivery Platform
Version	1.0
Prepared By	Lalita khatri
Date	06-Jan-2026
Status	Draft

2. Purpose

This document defines the functional behavior of the system in detail. It translates business requirements into clear, testable functional requirements that guide design, development, and testing.

3. Scope

The FRS covers:

- User-facing functionalities
 - Backend functional logic
 - Role-based system behavior
 - Integration-level functional flows
-

4. Functional Modules

Module ID	Module Name
FM-01	User Management
FM-02	Restaurant Management
FM-03	Ordering System
FM-04	Payment Processing

FM-05	Delivery Management
FM-06	Admin & Reporting

5. Functional Requirements

5.1 User Management

FRS ID	Functional Requirement	Priority
FRS-01	System shall allow user registration via email or phone	High
FRS-02	System shall authenticate users securely	High
FRS-03	System shall allow profile updates	Medium

5.2 Restaurant Management

FRS ID	Functional Requirement	Priority
FRS-04	System shall allow restaurants to create and update menus	High
FRS-05	System shall allow restaurants to accept or reject orders	High

5.3 Ordering System

FRS ID	Functional Requirement	Priority
FRS-06	System shall allow customers to add items to cart	High
FRS-07	System shall calculate order totals and taxes	High
FRS-08	System shall generate a unique order ID	High

5.4 Payment Processing

FRS ID	Functional Requirement	Priority
FRS-09	System shall integrate with payment gateways	High
FRS-10	System shall support refunds for failed orders	Medium

5.5 Delivery Management

FRS ID	Functional Requirement	Priority
FRS-11	System shall assign delivery partners automatically	High

FRS-12	System shall provide real-time order tracking	High
--------	---	------

5.6 Admin & Reporting

FRS ID	Functional Requirement	Priority
FRS-13	Admin shall manage users and restaurants	High
FRS-14	Admin shall view system reports	Medium

7. Functional Dependencies

Dependent Function	Dependency
Order confirmation	Payment success
Delivery assignment	Restaurant acceptance
Order tracking	Delivery partner assignment

8. Validation Rules

Rule ID	Rule Description
VR-01	Email must be unique
VR-02	Order total must be positive
VR-03	Payment confirmation mandatory

9. Assumptions and Constraints

Type	Description
Assumption	Continuous internet access
Constraint	Third-party payment gateway limits

10. Acceptance Criteria

Criteria
All functional requirements implemented
Unit and integration tests passed
Stakeholder approval received

11. Conclusion

This FRS/FSD provides a **clear, structured functional blueprint** ensuring that system behavior aligns with business goals and user expectations.
