

Test Case Document

Online Food Delivery Platform

1. Document Control

Attribute	Details
Document Name	Test Case Document
Project	Online Food Delivery Platform
Version	1.0
Prepared By	Lalita Khatri
Date	06-Jan-2026
Status	Draft

2. Purpose

This document defines test scenarios and test cases to verify that the Online Food Delivery Platform meets business, functional, and system requirements.

It ensures the system is reliable, secure, and ready for production.

3. Test Scope

3.1 In-Scope

Area
User registration and login
Restaurant browsing and ordering
Payment processing
Delivery assignment and tracking
Admin monitoring and reporting

3.2 Out-of-Scope

Area
Third-party gateway internal logic
Network failure testing
Hardware device testing

4. Test Environment

Component	Description
Application	Web & Mobile
OS	Windows, Android, iOS
Database	PostgreSQL / MySQL
Browser	Chrome, Firefox
Tools	JIRA, Selenium, Postman

5. Test Case Design Approach

Approach	Description
Black Box Testing	Validate functionality
Integration Testing	Verify module interactions
Regression Testing	Ensure no broken features
UAT	Business validation

6. Test Case Summary

Module	Total Test Cases
User Management	6
Ordering	8
Payment	5
Delivery	6
Admin	5
Total	30

7. Detailed Test Cases

7.1 User Registration

Test Case ID	Test Scenario	Precondition	Test Steps	Expected Result	Status
TC-01	New user registration	App accessible	Enter valid details	Account created	Pass
TC-02	Duplicate email	Existing user	Register with same email	Error shown	Pass

7.2 Login

Test Case ID	Test Scenario	Precondition	Test Steps	Expected Result	Status
TC-03	Valid login	Registered user	Enter credentials	Login success	Pass
TC-04	Invalid login	Registered user	Wrong password	Error shown	Pass

7.3 Place Order

Test Case ID	Test Scenario	Precondition	Test Steps	Expected Result	Status
TC-05	Place order successfully	Logged-in user	Add items → Checkout	Order confirmed	Pass
TC-06	Empty cart	Logged-in user	Checkout	Error message	Pass

7.4 Payment Processing

Test Case ID	Test Scenario	Precondition	Test Steps	Expected Result	Status
TC-07	Successful payment	Order created	Pay online	Payment success	Pass
TC-08	Payment failure	Order created	Invalid card	Retry option	Pass

7.5 Delivery Tracking

Test Case ID	Test Scenario	Precondition	Test Steps	Expected Result	Status
TC-09	Track order	Order dispatched	Open tracking	Live status visible	Pass
TC-10	Delivery completion	Rider assigned	Mark delivered	Order closed	Pass

8. Requirement Traceability

Test Case ID	Mapped Requirement
TC-01	FRS-01
TC-05	FRS-06
TC-07	FRS-09
TC-09	FRS-12
TC-10	SRS-11

9. Entry and Exit Criteria

Entry Criteria

- Approved SRS and FRS
- Stable build deployed
- Test data available

Exit Criteria

- All critical test cases passed
 - No open high-severity defects
 - Stakeholder sign-off received
-

10. Defect Management

Severity	Description
Critical	System unusable
High	Major function broken
Medium	Partial functionality

Low	UI or cosmetic issue
-----	----------------------

11. Test Deliverables

Deliverable
Test cases
Test execution report
Defect log
Test summary report

12. Conclusion

This Test Case Document ensures comprehensive validation of the Online Food Delivery Platform, confirming that all requirements are implemented, tested, and ready for release.
